Scattergood Project, Haverford College Libraries

June 2015-August 2015

Digital Scholarship Intern

- For the summer of 2015, I created the entire website/digital platform for the Scattergood Collection (which encompasses 19th century documents from Friends Asylum).
- For the first part of the summer, I researched and looked over the primary materials to find what types of data could be extracted from the collection for visualizations, and what features and functionality the website should include.
- For the rest of the summer, I worked on creating a database and substantial administrative back-end with Django and also the front-end of the site with Foundation5. Visit: <http://qmh.haverford.edu> to see the site.
